Our timeless practices support your path of personal discovery. Feel, hear, trust and nurture the power that lives within you. Embrace your Journey.

UNIQUELY MII AMO

Honoring our place and committed to our roots, these services, found only at Mii amo, represent how we have served our guests with inspired innovation for over twenty years.

Inner Quest

Take this journey of exploration in a safe and trusted place and open yourself to the possibility of deep inner clarity. Ceremonial elements of braided sweet grass (representing the braids of grandmother), rawhide drums (to open the four directions), and cedar/sage oil (sacred plants) are all part of a journey that when together with our skilled guides make this a Uniquely Mii amo experience.

Chakra Balancing

Scented vibrational oils matched to each chakra are combined with their coordinating colors, crystals and stones. Through intentional placement, aroma, and gentle touch along the chakra centers, your practitioner guides you on a sensory journey toward deeper alignment, embodiment, and clarity.

Connection Ceremony

Times of transition can be challenging regardless of whether they are happy, sad, rocky, or fluid. In this ceremony, you can meet these moments by letting go, saying good-bye or welcoming in, because connection can take many forms. Each individual ceremony is created to help you through a transition. Your transition may be connected to a specific event, such as a birth, a passing, or an anniversary. Or, it may be a broader life circumstance such as the evolution of a relationship.

Intentional Aromatherapy Massage

Aromatherapy in a uniquely Mii amo way. By combining the uncommon partnership of ten essential oils and ten intention-setting cards, this treatment approaches aromatherapy by essence rather than by sense of smell. It includes a dry body brush exfoliation with a light, flowing massage.

Intuitive Massage

Combining a gentle massage with an energy reading, your therapist balances and integrates the various aspects of your psyche. Both healing touch and conversation are carefully attuned to your needs so you may deeply reconnect to your sense of wholeness.

High Desert Enzyme Wrap

Dosha Balancing Wrap

MASSAGE AND BODYWORK

Our Massage and Bodywork Treatments include varying types including couples massage.

Ancestral Stone Massage

Ancient cultures around the world believe that our ancestors work through stones to support our healing journeys. This modern-day interpretation incorporates both hot and cold stones. Basalt stones are used for their thermodynamic qualities that maintain heat and transfer energy while marble stones remain cold resulting in a direct effect on the cardiovascular system and relaxation of the muscle tissue.

CBD

Our CBD massage begins with a dry brush and hot compresses, to prepare the body to receive the healing benefits of the CBD oil. Then, using a combination of massage techniques and application of a high potency CBD salve, stress, anxiety, and muscle tension are relieved.

Head, Neck and Shoulders

A therapeutic yet nurturing service that blends tension point release techniques with focused massage on the head, neck, and shoulders.

Lymphatic

This light yet powerful hands-on technique encourages lymphatic drainage, gentle detoxification, supports immune function, and nurtures the body's natural pathways of clearing and restoration.

In Pursuit of Wellbeing

MEDITATIONS

The mind, like your body, needs care, and meditation is a way to fulfill that need.

Basics of Meditation

If you would like to learn how to meditate, we recommend beginning with the basics. Breath, awareness, and relaxation are taught through guided imagery and breathing techniques. Even for experienced meditators, coming back to the basics can also be a good practice.

Journey Through the Chakras

Working through each of your chakras, this meditation grounds and connects you with each one of your energy centers.

Infinite Possibility

This guided meditation will bring you into all the possibilities from what you have planted and intended for your life this year. Creating an energy of lightness, excitement and joy as you sense the growth and express gratitude in its unfolding, allowing yourself to appreciate the abundance in the present moment.

Spirit of Nature

Our busy, day-to-day lives can lead to a disconnection from nature. Here, in this powerful, beautiful and tranquil setting, your mindfulness practitioner will help you to rebuild awareness and connection to the healing power of the natural world.

SOUND RESONANCE THERAPY

Everything in our universe is based on energetic vibration resonating with its own signature frequency.

Healing Sound Bath

Crystal Singing Bowls, placed around your body while you are lying on a mat, work directly with your individual energy by channeling it through your core. The sounds emanating from the bowls can reduce stress, calm adrenals, and increase clarity.

Sound Escape

Relax in a zero-gravity lounge while gentle beats of music vibrate up and down your spine. This can be a deeply moving experience, so your therapist will always be present for you.

ENERGY AND SPIRIT

Approached with an open heart and mind, these powerful sessions take you on journeys that foster clarity, deepen insights, and guide you toward finding your inner wisdom.

Astrology

A professional astrologer offers insights into the patterns in your life. Please make your reservation for this experience twenty-four hours in advance. Your astrologer will need your birthdate, birthplace, and time of your birth in order to prepare your chart prior to your session.

Aura Photography

By collecting the electromagnetic energy that is emitted from your body and translating it into our physical world, an aura photograph displays the colors of the chakras surrounding you. Here at Mii amo, your aura photograph is taken both before and after a guided meditation so your practitioner may provide you with an in-depth reading as to why the photos differ and how you have the power to balance your own chakras and auric energy.

Energy Clearing

Let go of what no longer serves you. Whether it be guilt, emotional tension, grief, grudges, or old beliefs, your practitioner invites you into a new space by asking what you long for in your life. Through conversation, ritual, clearing of your auric field, and energy clearing bodywork, your therapist helps you release the old and invite the new.

Hypnosis

During your session, a licensed hypnotherapist will guide you into a trance-like state. Using verbal cues and imagery, you will be brought to a heightened level of focus leaving you more open to suggestions. Perhaps you would like to better cope with anxiety or a loss, gain control over an unwanted behavior or be more open to something. Hypnosis has been proven to help move people through personal challenges and overcome difficulty. Kindly indicate your focus when reserving this service.

Past Life Regression

Using hypnosis to induce a deep state of relaxation, your certified hypnotherapist will guide you on an exploration of past life memories that may provide insights into who you are today and why you do the things you do.

Reading of the Moment

Using any combination of Tarot Cards, Palmistry, Numerology and sometimes the Pendulum, an intuitive guide will take you on a journey to find more clarity and give you a higher level of understanding of your current life's path. Focusing on what is foremost in your mind in this moment gives this special session its name.

Reiki Healing

This healing ritual is performed by your practitioner prior to and in conjunction with a Reiki session. It raises your frequency, which clears your energy field and allows you to better receive the healing powers of Reiki. This is one of the highest levels of Reiki and can only be performed by a Reiki Master. This service requires you to be clothed, so please arrive wearing loose-fitting, comfortable clothing.

CEREMONY

An interactive and engaging experience that calls upon connecting through the canyon's energy.

Medicine Wheel

This ceremony journeys through the four cardinal directions of the compass points and the natural elements of each. East (air), West (water), South (earth) and North (fire) each have a guiding spirit symbolizing the four stages of life, offering lessons and gifts that support the development of a balanced life.

Spirit of the Full Moon: Releasing

June 28 and 29, July 28 and 29

August 26 and 27

The full moon is a meaningful time to clear your emotional and spiritual slate by releasing what no longer serves you. This ceremony begins with the act of writing down what you want to let go of and burning it, providing a metaphorical and visceral release. A full body massage using sage oil that has been infused with the light of the full moon supports you in your journey.

Spirit of the New Moon: Manifesting

June 13 and 14, July 13 and 14

August 11 and 12

The new moon is a powerful time to invite in your wishes and desires for your life. In this ceremony, your practitioner guides you through a grounding and reflective footbath, the penning of your intention, and a full body massage in which geranium and pine oil are used to open your mind and expand your energy level. When finished, we hold on to your written intention for one lunar cycle and on the following new moon we bury it in the canyon where it composts into the powerful and grounding earth.

Lit by an aperture overhead, it is designed so that once a year, on the summer solstice, a beam of sunlight strikes the crystal, connecting earth and sky.
